

SUMMER + CAMP + SCIENCE = SCIENCE IS REAL LEARNING

Teacher: Mrs. Joan Baley

Grades: Incoming 1st-5th Grade Students

Summer is a great time to join the Summer Science Camp at St. Christina School. It is a camp that will get your child involved in the STEM approach, incorporating Science, Technology, Engineering, and Math Skills.

This camp will provide hands-on project-based instruction. Students will be introduced to different areas of science each day. They will enjoy working together on the many new experiments that will be conducted in the science lab. Their senses will be stimulated and their imagination will be unlocked as they experience new concepts. This class will enhance their creative problem-solving and critical thinking skills. Along with SCIENCE skills, MATH will be incorporated into the curriculum each day according to grade level. Come join us for a scientific/mathematical time.

SCIENCE STEM CAMP: June 10th-June 20th

Days: Mondays through Thursdays

Time: 8:30 a.m.-10:00 a.m.

Place: St. Christina School

Cost: \$200 4 days a week for 2 weeks

\$100 4 days a week for 1 week

All supplies will be provided.

For more information, contact: jbaley@stchristina.org.

Drop-off and pick-up will be at the entrance on the west side of the building, in the middle of the parking lot, across from the flagpole. Look for the door with the red awning. The students will be working in Room 19, the science lab.

Hope to see you at this fun, interactive camp!! I will provide a whole new engaging program.
